ONE PACKAGE. ONE SMARTER DUPLEX

Why This Package?

Greater Everyday Comfort

Control lighting, appliances and climate from your phone or by voice, and run daily scenes from one command.

Smart Security & Access

SHARP S5FV provides multiple smart access methods for a practical and secure main-door experience.

Control Traditional Appliances

Add air conditioners, TVs, receivers and other compatible infrared appliances to your smart scenes with Tuya Zigbee IR Remote Control.

Expandable Smart Home

Zemismart Zigbee Hub T1 connects compatible Zigbee devices in one system and makes future expansion easier.

Ready Smart Scenarios for Your Duplex

Arrival Scene

On arrival, selected entrance lights can turn on and compatible climate devices can be prepared through one welcome scene or voice command.

Movie Scene

Turn on the TV or compatible IR appliances and adjust Avera lighting from one scene.

Gas Safety Scene

When a gas leak is detected, the sensor can sound an alarm and send a notification, while the valve controller can be included in a programmed shutoff automation.

Leaving Home Scene

Switch off selected lighting and devices, review the smart-lock status, and activate a quick safety scene before leaving.

Important Before Ordering & Installation

- Avera switches require wiring and wall-box dimensions to be checked before installation.
- The IR remote needs continuous USB power and suitable positioning for infrared line-of-sight to target appliances.
- SHARP S5FV compatibility depends on door type, thickness, opening direction and the existing lock setup.
- Gas sensor and valve installation should follow proper safety requirements and the actual valve location.
- Some Alexa functions depend on platform setup and individual device compatibility.

Smart Duplex Package - EGP 63,999

Contact Aura Smart Home to review compatibility, select available colors and confirm installation requirements before implementation.
