LEZN IP05MF Smart Sticker Card

13.56MHz RFID / NFC Access Sticker

A small 30 mm passive RFID / NFC sticker card with the LEZN logo for unlocking LEZN smart locks and access readers that support 13.56MHz IC cards, with no battery, charging or maintenance needed.

30 mm	RFID / NFC	Passive	13.56 MHz
Sticker diameter.	Access technology.	No battery needed.	Card frequency.

13.56MHz · Passive RFID · NFC · No Battery · Sticker Design · LEZN Logo

Key Features

Fast Keyless Access

Unlock a compatible smart lock simply by tapping the card on the reader, with no keys or repeated passwords.

Small, Light Sticker

A 30 mm sticker you can attach to your phone, personal card or any suitable surface, with the LEZN logo.

No Battery

Passive RFID with no battery, so it needs no charging or regular maintenance.

Applications

- LEZN Smart Locks with IC Card Support
- Access Control Systems
- Hotel Rooms & Serviced Apartments
- Offices & Staff Access

How It Works

1. Check Compatibility

Make sure the smart lock or access reader supports 13.56MHz IC cards.

2. Enroll the Card

Enroll the card as a new user from the lock keypad or the lock app.

3. Tap the Card

Tap the card on the reader to unlock the smart lock.

Aura.eg

Operating Features

For Authorized Users

The card can be enrolled for authorized users only.

Revoke Access if Lost

If the card is lost, delete it from the lock or app and it will no longer open the door.

Multiple Users

Easy for adding multiple users, and a practical alternative to shared passwords.
